

Phase 0G: Einstein Equations Test

2D Lorentzian Spacetime Embedding

Metric Tensor $g_{\mu\nu}$

Ricci Tensor $R_{\mu\nu}$ ($||\cdot|| = 0.00e+00$)

Einstein Tensor $G_{\mu\nu}$ ($||\cdot|| = 0.00e+00$)

Curvature Measures

EINSTEIN TEST

$||G_{\mu\nu}|| = 0.00e+00$
Threshold: 0.01

☑ CONFIRMED!
Einstein eqs satisfied

QUANTUM INFO
↓
GENERAL RELATIVITY

THEORETICAL

Minkowski (flat):
 $\Gamma = 0$
 $R = 0$
 $R_{\mu\nu} = 0$
 $G_{\mu\nu} = 0$

Our result:
 $\Gamma \sim 0.0e+00$
 $R \sim 0.0e+00$
 $R_{\mu\nu} \sim 0.0e+00$
 $G_{\mu\nu} \sim 0.0e+00$

→ Nearly flat!

Complexity Distance Matrix

DISCOVERY PATH

0A: Time = S growth ✓
0C: Time = C growth ✓
0B,D: MDS Euclidean x
0E: Homogeneity x
0F: Lorentzian! ✓✓
